BOODLING IS ALLEGED.

Irregularities in the Kansas City, Kan., Board of Education.

KANSAS CITY, Mo., Oct. 6 .- An investigation of alleged boodling on the Board of Education of Kansas City, Kan., promises to end in sensational disclosures. A grand jury may be asked to probe the matter. The admission of M. J. Jones, clerk of the oard, that he had received rebates from nsurance agents on premiums paid by the beard for insurance on school buildings as started an investigation of charges of dling in other lines. A member of the mittee asserted to-day that he has positive proof that severa; teachers in the pubschools have been forced to pay from 35 to \$50 before being guaranteed appointments. Other teachers, upon making aplication for re-election, had, it is said, been solicited for mon-y in consideration of getting a guarantee that they would reeive the votes of certain members of the board. Charges also have been made that there have been irregularities in the granting of contracts for supplies for the schools with coal and in the purchase of school furniture. A committee has been appointed to investigate the charges. Clerk Jones denied to-day that he would resign, and says he is ready for an investigation.

MANAGERS OF ORPHANS' HOME CLASH WITH COMMISSIONERS.

serious Accusations Against Koko-Chief-Union City's mo's Fire

Small Baby-News of Indiana.

special to the Indianapolis Journal. KOKOMO, Ind., Oct. 6.-There was sharp ciash to-day between the County Commissioners and the lady board of managers of the Heward county Orphans' Home. Last week the commissioners voted to abandon the home and place the orphans in the White Institute, Wabash county. This action was taken against the wishes of the ladies and to-day when the commissioners asked them to sign papers relinquishing control of the children they were met by a flat refusal.

The women want a new home built here and are opposed to farming out the orphans. Mrs. A. F. Armstrong, who has been president of the board of control for twenty years, will sign no papers for the transfer of the children and the commissioners are in a dilemma. The present nome is old, inadequate, out of date and unsanitary and the commissioners refused to appropriate money for a new edifice. The women to-day decided to visit the White Institute and inspect the place. A thorough study of the institution may result in their withdrawing their objections and consenting to the removal of the orphans, but this is not at all certain. The managers are against sending the little ones away under any consideration. They ask an appropriation of \$8,000 to erect a new Howard county Orphans' Home.

Discovered by L. E. & W. Engineer-Stamp Collection in Danger.

FT. WAYNE, Ind., Oct. 6.-The fire at of Indianapolis, gave two concerts to-day Eckerts last night was discovered by the motive who blew the regulation fire whistle and caused the first alarm to be sounded. The fire originated in the lard room, which burned with unquenchable violence and heat. The fire was fought by part of the fire department all night. There were hundreds of hogs and cattle in the pens which had to be driven slowly through the narrow gates, but they were saved. At 1 o'clock this morning as the fire department was returning from the Eckert fire a bright blaze within a square of fire headquarters caused the jaded men to re- for over a week, as the creek had failed to spond to another alarm. DIVORCED AND MARRIED.

The Old Saying "Off With the Old, On With the New," Exemplified.

Special to the Indianapolis Journal. LAPORTE, Ind., Oct. 6 .- "Off with the old and on with the new" was applicable to a scene which took place to-day in Judge Richter's court. Charles A. Huffman was granted a divorce from Tillie Huffman. The next case on the calendar was the divorce suit of Laura Johnson vs. David Johnson, and but a few moments were necessary in which to prove the allegations of cruelty and abandonment, these being the same charges in the Huffman case. Then Charles Huffman and Mrs. Johnson, the plaintiffs in the two actions, left the courtroom arm

A few minutes later the county clerk had granted a marriage license to the pair, and Mayor Darrow, who was Huffman's attorney, performed the ceremony at which Mrs. Johnson became Mrs. Huffman. The proceedings had so much the appearance of collusion that Judge Richter, on learning afterward what had transpired, declared most emphatically that had he surmised what was going on one or possibly both decrees would have been refused.

BROOM CORN MARKET.

Situation Unusually Strong in Central Illinois.

Special to the Indianapolis Journal. PARIS, Ill., Oct. 6.-The broom corn situation remains unusually strong in the central Illinois district for this season of the year, and is attributable to the shortness of the crop and especially the small proportion of hurl or fine corn necessary to finish brooms. A large quantity of corn has changed hands in the past week, being bought by the brokers and speculators. The latter class of buyers are forcing brokers to go over \$100 per ton for the brush, as the brokers have to have it to fill their orders. No crops have yet sold for nore than \$115 per ton, but there is no indication whatever of the market weakenin and the price predicted a few days ago. \$125 per ton, may be reached before long. Reports from Kansas and other South western broom corn quarters are to the effect that speculators entered the field there and the growers were benefited by the competitive bidding, receiving as much as \$110 for their crops in some instances, this being unusually high for Southwestern broom corn. Almost all of the Illinois crop is in the sheds and, in fact, hardly a single field of brush is left standing.

ELWOOD, Ind., Oct. 6.-The City Council, at its meeting last night, adopted the tax levy for the year 1903, to be collected next year, and for the first time in several years there is a reduction in the rate of taxation for purely city purposes, although the league, is its inconsistency. This point the addition of a special school tax on the has been more generally commented on than county duplicate will make the total taxaion here \$2.35 on the \$100, where it was only \$2.06 last year. The city tax is \$1.56 on the \$100, apportioned as follows: General fund. 1; public buildings, 6 cents; special light, 18 cents; special water, 17 cents; funding oonds, 9 cents; library, 6 cents. Glass Workers' Wage Scale.

Special to the Indianapolis Journal. MUNCIE, Ind., Oct. 6.-John L. Dobbins, secretary of the American Flint Glass Workers' Union, the members of the executive board of the local association, and the firm of Ball Bros. to-day completed consideration of the wage scale for the coming year. The scale of last year was practically ratified. This is the same scale which was adopted at Atlantic City last month at a meeting of the American Flint Glass Workers and the glass manufacturers. There is some controversy in the local union because Ball Bros, have secured a patent on a presser for the whiteliner department which will supersede hand pressers. The machine will throw a number of men out of work. A concession which was made by the firm was to grant the men fifteen minutes' recess at 10 o'clock each morning. As there are about 1,500 employes in the big factory, the concession will prove costly to Ball Bros.

Occidental Hotel, to discuss the situation among the mine workers of District 15, embracing Colorado, Wyoming, New Mexico and Utah. The miners in those regions have been on the verge of a strike for the past few weeks and are only awaiting a decision from the executive board to leave the mines. The board discussed the conditions in the morning and in the afternoon an audience was held with Mr. Montgomery, who came especially to confer with Mr. Mitchell. It was finally decided by the board to authorize John Mitchell to appoint a committee to investigate the trouble and then report back to the executive board the matter stands thus and

About two thousand coal miners in District 15 are ready and willing to go on strike, because of the refusal of the operators to grant their demands. They ask gave him money to leave the State and that the mines be better ventilated and made charges affecting her character. the wages increased and the hours of labor shortened. Mr. Montgomery said last night: "The demands of the miners are just. The mines are badly ventilated and the scale of wages in the West has not advanced in the same ratio as the miners' wages in the East. Things look pretty bad at present, but I am in hopes that the strike will be averted. There is already one strike among the miners in Colorado and 1,200 of the State militia are at Cripple Creek. I do not think a strike is advisable at this time, for the reason that it would not tie up all traffic and would not accomplish all that is intended that it should There are many nonunion men in the region and consequently the strike would not be totally effective. INCONSISTENCY POINTED OUT. The Citizons' League Report Rejects Hitz and Indorses Watson.

One of the diverting features of the "re port" of the Citizens' League, in the minds of many citizens who are not members of the league, is its inconsistency. This point any other. The league speaks complimentarily of George Hitz, the Prohibition candidate for mayor, but says he will not do because he stands no chance of election. In its next breath the league rejects both the Republican and Democratic candidates

for police ludge, and indorses B. F. Wat-son, the Prohibition candidate. To the ur prejudiced observer it would appear that Mr. Watson stands even less chance of election than does Mr. Hitz, as there is no especial fight on the race for police judge, and nothing to lead partisans to reject the candidates of their respective parties. If Mr. Hitz is rejected by the league because there is not even a remote possibility of his election, many voters ask, why does not the league reject Mr. Watson for the same reason? The league also recommends Prohibition candidates for Council in wards in which the candidates have absolutely no chance of election.

Another angulary raised is, why did the league ignore the candidacy of Dr. James Carter for mayor? Dr. Carter is a candidate-has filed his petition to have his name

on the ballot. TEAMSTERS' BOARD SESSION.

Sixteen Grganizers Will at Once b Put in the Field.

The executive board of the International Brotherhood of Teamsters, which has been in session for the past week at the new headquarters of the union in the Thorp block, will adjourn to-day unless some unexpected question arises that will take further consideration. One of the most important things done by the board at this session was to make arrangements to put sixteen organizers into the field at once and build up he organization in all parts of the country.
